CAT Quantitative Aptitude Topicwise PYQ Index (2017-2025)

A source-linked practice index covering 612 questions across CAT 2017-2025. Topics are ranked from most frequent to least frequent, then grouped by year and slot.

612 Questions	27 Topic groups	9 Exam years	12 Review flags

How to use: open each linked question, solve it under a timer, and record the result in the companion workbook. Difficulty marked with an asterisk is derived from public archive attempt statistics when available; Unrated means no attempt statistic was available. Topic labels are a practical preparation taxonomy. Rows marked for review are broad or image-dependent classifications that should be checked while solving.
